	SECOND TERM SUMMATIVE ASSESSMENT 2025 STD VIII CHEMISTRY ANSWER KEY -EM PREPARED BY RAVI P; HS PERINGODE, PALAKKAD	
Qn. No.	Scoring Indicators	Score
1	MgO (Magnesium Oxide)	1
2	C—c,a,b	1
3.	They do not show metallic lustre and have low thermal/electrical conductivity.	2
4 A 4 B	a) Gold is used for making ornaments. b) Due to its sonority (property of producing sound). OR a) Used for manufacturing utensils. b) It prevents the entry of air, moisture, and light.	1+1
5	a) carbon dioxide and water. b) Light energy is converted into chemical energy.	1 + 1
6	a)Hydrogen b)Carbon dioxide	1 + 1
7	a) Na b) Fe c) Natrium d) Ferrum	2
8 A 8 B	a) Solution (a) b) Solution (c) b)Solution (4) b) Solution (1)	1 + 1 1 + 1
9	a) Carbon dioxide ($CO_{2)}$ b) Sodium hydroxide (NaOH) c) Silver chloride (AgCl)	
10 A	a) Because of its high reactivity. b) Iron reacts with food substances to form other chemical products. c) Gold does not chemically react with air. Surface Coating: Apply paint, grease, or oil to the metal	1 + 1 + 1
