SAMAGRA SHIKSHA KERALA
Summative Assessment -Term I 2026-27
ENGLISH

808

Std.: VIII

Time: 1½ hrs.
Total Score: 40

INSTRUCTIONS:

- The cool off time of 15 minutes is to be used for reading the question paper.
- You are not supposed to write anything during the cool off time.
- Attempt the questions according to the instructions.

Questions 1-3: Read the excerpt from *A Long Walk with Granny* and answer the questions that follow. **3 x 1=3**

Granny could hear the distant roar of the river and smell the pine needles and feel the presence of her grandson, Mani. She couldn't see the river or the trees. She could only make out Mani's fuzzy hair and sometimes, his blackberry eyes and the gleam of his teeth when he smiled.

Granny wore a pair of old glasses. She'd been wearing them for well over ten years. Her eyes had grown steadily weaker and the glasses were now scratched and spotted. So, there was very little she could see through them. Mani and his father felt that it was high time Granny had her eyes tested and got her new glasses.

1. How did Mani and his father try to solve the problems related to Granny's eye sight?
2. Which among the following is not correct?
   A. Granny wore a pair of old glasses.
   B. Granny's eyes had grown steadily weaker.
   C. Granny's glasses were scratched.
   D. Mani and his father felt it was not the right time to have Granny's eyes tested.
3. Pick out a word or phrase from the passage which means 'to understand'.

Questions 4-6: Read the lines from *Hope is the Thing with Feathers* and answer the questions that follow. **3 x 1=3**

Hope is the thing with feathers
That perches in the soul,
And sings the tune without the words,
And never stops at all.

And sweetest in the gale is heard;
And sore must be the storm
That could abash the little bird
That kept so many warm.

I've heard it in the chillest land,
And on the strangest sea;
Yet, never, in extremity,
It asked a crumb of me.

4. Where, according to the poet, does Hope perch?
5. Pick out an example of metaphor from the given lines.

6. What does the bird ask for in return?

A. The bird doesn't ask for anything in return.
B. The bird asks for a song in return.
C. The bird asks for patience and faith in return.
D. The bird asks for a crumb of bread in return.

7. Read the lines from *The Seven Ages of Man* and write a short paragraph summarising the ideas contained in the lines using the hints given below. **1 x 4 = 4**

The sixth age shifts
Into the lean and slipper'd pantaloon,
With spectacles on nose and pouch on side;
His youthful hose, well sav'd, a world too wide
For his shrunk shank; and his big manly voice,
Turning again toward childish treble, pipes
And whistles in his sound.
Last scene of all,
That ends this strange eventful history,
Is second childishness and mere oblivion;
Sans teeth, sans eyes, sans taste, sans everything.

(Hints: William Shakespeare – different stages of human life – physical and emotional changes – literary devices – alliteration - imagery)

Questions 8-10: Read the passage given below and answer the questions that follow. **3 x 1 = 3**

The Power of Nature

Nature has always been a powerful force shaping the lives of humans. From gentle rain that nourishes crops to storms that destroy entire towns, nature reminds us that we are just a small part of a vast system. The sun gives us warmth and energy, while rivers and forests provide food, water, and shelter. However, when nature's balance is disturbed, through deforestation, pollution, or burning of fossil fuels, it strikes back with floods, droughts and heatwaves. This climate change poses many risks to human beings and all other forms of life on Earth.

In recent years, scientists have warned that human activities are putting too much pressure on the planet. Cutting down trees for land, burning fuels for energy, and wasting water have caused the Earth's temperature to rise. This not only affects weather patterns but also endangers animals and plants. Yet, it's not too late. By planting trees, using renewable energy, and reducing waste, we can live in harmony with nature again. Respecting nature's power is the first step toward protecting our future.

8. How does nature react when its balance is disturbed?

i) Nature retaliates with droughts and heatwaves.
ii) Nature shapes the lives of humans.
iii) Nature strikes back with floods.
iv) Nature provides us energy and food.

Choose the correct option:

A) Only i is correct.
B) Only iv is correct.
C) Both i and iii are correct.
D) All the four statements are correct.

9. What are the main causes that lead to disastrous climate?
10. How can we live in harmony with nature again?

Questions 11-13: Answer either A or B.

11. **[A]** His first earnings as a newspaper boy fills Abdul Kalam with excitement and a sense of responsibility. He jots down his feelings in his diary. Write the likely **diary entry.** **1 x 4 = 4**
