SET - A

E 806

# SAMAGRA SHIKSHA, KERALA

## ANNUAL EVALUATION 2024 - 25

## BASIC SCIENCE

**Standard: VIII**

**Time : 2 hour**
**Total Score : 60**

**Instructions**

- The total cool off time for Physics, Chemistry and Biology is 15 minutes. Read the questions carefully and understand them during this time.
- Answers are to be written in the order Physics, Chemistry and Biology.The time for each section is 40 minutes. The answer books must be returned to the teacher after writing each subject.

## Physics

**Time : 40 minute**
**Total Score : 20**

**Answer any <u>three</u> questions from 1 to 4 . Each carries 1 score.** **(3 x 1 = 3)**

1. Find out the odd one from following units and write it down. (1)

   a) m b) g c) kg d) mg

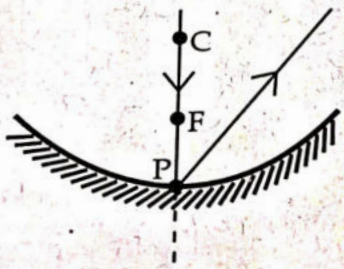

2. Find the relation from the first pair and complete the second pair. (1)

   Scalar quantity : speed

   Vector quantity : .....

3. The reflection of light by a concave mirror is depicted. Which is the correct figure? (1)

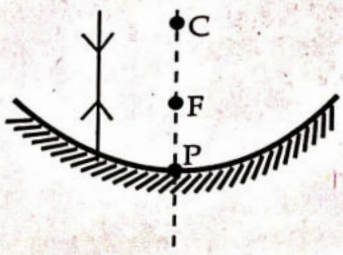

a)

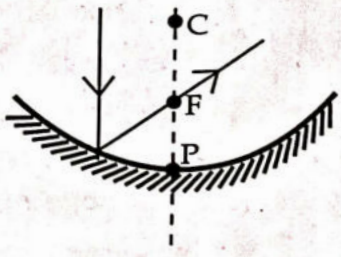

b)

c)

d)

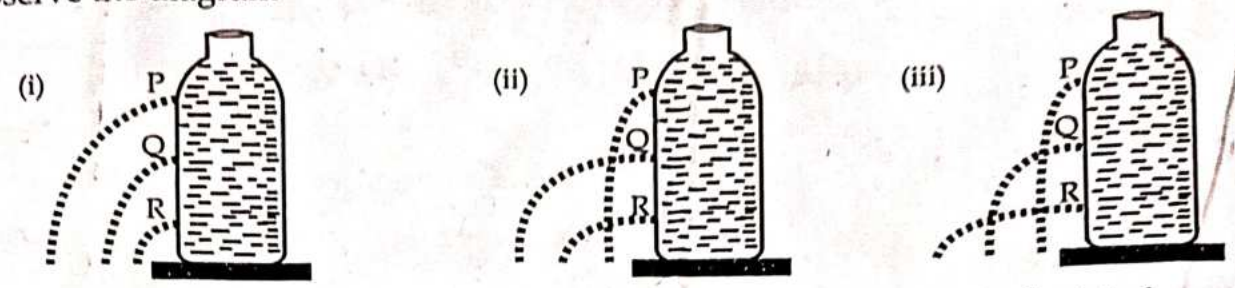

4. Which of the following is a sound of low pitch? (1)

   a) sound of a lady b) sound of a man c) sound of cuckoo d) sound from a whistle

**Answer any four questions from 5 to 9. Each carries 2 score.** **(4 x 2 = 8)**

5. Observe the diagram

Water flowing down out through the holes P, Q and R on a bottle is depicted.

a) Which is the correct figure? i/ ii /iii (1)

b) What is the reason for this inference? (1)

6. Find the correct statements from those given below and write them down. (2)

a) Like poles of magnets attract each other.

b) The magnetic south pole of the earth's magnet is near the geographic north pole of the earth.

c) Susceptibility is the ability of a magnetic substance to get magnetised due to the influence of a magnetic field.

d) Retentivity is the ability of a magnetic substance to spread magnetic field lines with in it.

7. The sound produced by a vibrating tuning fork can be heard by us. But we cannot hear the sound produced by the oscillation of a simple pendulum. Describe the reason. (2)

8. Observe the diagram.

a) Name the device shown in the figure. (1)

b) What is the use of this device? (1)

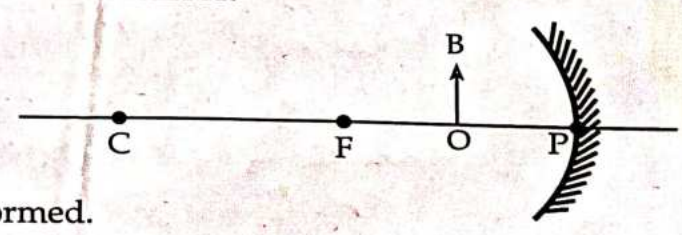

9. a) What do you mean by magnification of an image? (1)

b) An object of height 6 cm is kept in front of a convex mirror. Its virtual image is 3 cm high. Find the magnification. (1)

**Answer any three questions from 10 to 13. Each carries 3 score.** **(3 x 3 = 9)**

10. An object OB is kept in front of a concave mirror.

a) Complete the ray diagram and find the position of the image.

(2)

b) Write down any two characteristics of the image formed. (1)

**Answer any 4 questions from question no. 5 to 9. Each carries 2 score.** **(4x2=8)**

5. Complete the table suitably. (2)

| Agriculture sector | Variety | Product |
|---|---|---|
| ♦ a)..... | ♦ Rohu | ♦ b) ..... |
| ♦ Cuniculture | ♦ c)..... | ♦ Fur |
| ♦ d)..... | ♦ Tussar | ♦ Silk |

6. Different animal tissues and their characteristics are listed in columns A and B respectively. Arrange them according to the model. (2)

**MODEL : Fibrous tissue - Connect other tissues.**

| A | B |
|---|---|
| ♦ Cartilage | ♦ Connect other tissues. |
| ♦ Muscular tissue | ♦ Does the functions of protection, absorption and production of secretions. |
| ♦ Epithelial tissue | ♦ Provides support and protection to the body. |
| ♦ Blood | ♦ Consist of cells that can contract and regain the original state. |
| ♦ Fibrous tissue | ♦ Facilitates the conduction of materials and provides immunity. |

7. Different stages in the development of embryo is given below. Arrange them in correct order. (2)

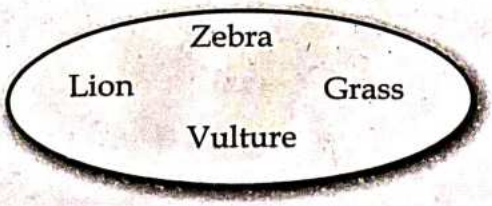

a) Ovum releases from the ovary.

b) Embryo develops by adhering to the uterus.

c) Embryo is formed by the continuous cell division.

d) Ovum fuses with the sperm in the oviduct and zygote is formed.

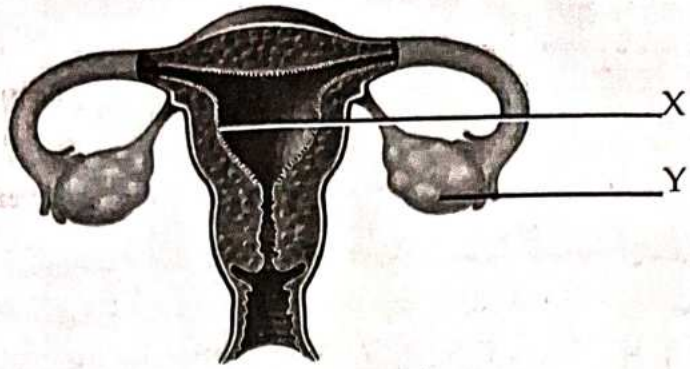

8. Some organisms included in a food chain are given below.

a) Make a food chain using the given organisms. Which organism comes under third trophic level in this food chain. (1)

b) **'Abiotic factors are essential for the existence of biotic factors.'** Justify this statement. (1)

9. Observe the picture and answer the questions

a) Identify and name the part 'X'. (1)

b) Write the role of the part 'Y' in reproduction. (1)

**Answer any 3 questions from question no. 10 to 13. Each carries 3 score.** **[3x3=9]**

10. Taxonomic hierarchy of tiger is given below. Fill in the blanks suitably. (3)

| | |
|---|---|
| .....(a) ..... | Eukarya |
| Kingdom | Animalia |
| Phylum | .....(b) ..... |
| .....(c) ..... | Mammalia |
| Order | Carnivora |
| .....(d) ..... | Felidae |
| Genus | .....(e) ..... |
| Species | .....(f) ..... |

11. Logo of an international organisation is given.

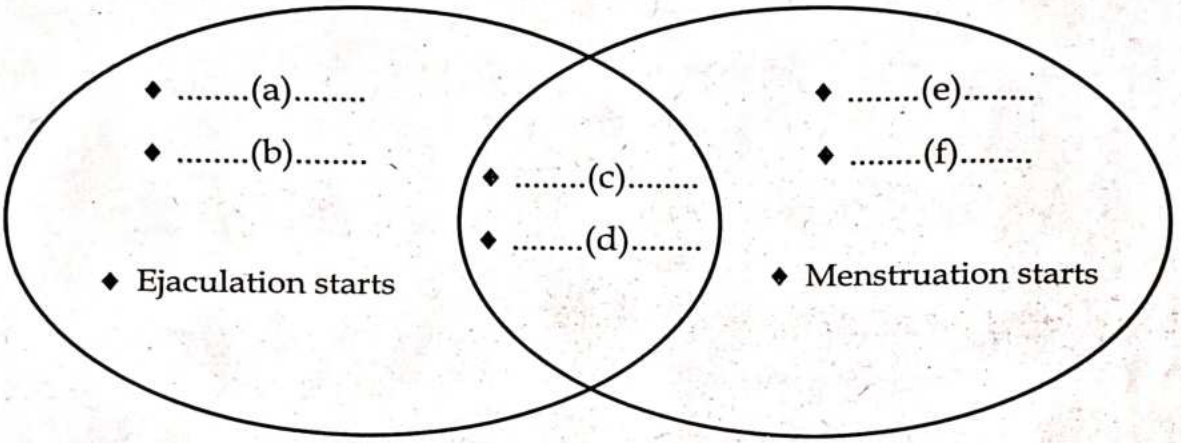

a) Write the name of this organisation. (1)

b) What is the objective of this organisation? (1)

c) Write two instructions that can be included in the poster to create awareness in people of your locality to protect the environment. (1)

12. Physical changes in the adolescents are given in the box. Complete the illustration suitably by including them. (3)

- Fast growth
- Shoulder bones expand
- Hair grows in various parts of the body
- Pitch of the voice becomes sharp
- Hip bones widen
- Pitch of the voice deepens

13. Arrange the given facts based on biodiversity by giving suitable titles. (3)

- Protects wild lifes along with the protection of historical monuments, natural resources and geographical features of an area.
- Research centres with facilities to collect seeds and gametes to preserve them.
- Different varieties of animals are protected and housed separately and necessary arrangements are made available for their reproduction.
- Includes extinct organisms.
- Areas protected with the participation of public.
