STD VIII SOCIAL SCIENCE

EXPECTED QUESTIONS FOR SECOND TERM EXAMINATIONS

CONSTITUTION OF INDIA: RIGHTS AND DUTIES

1."Without equality, liberty would produce the supremacy of the few over the many. Equality without liberty would kill individual initiative. Without fraternity, liberty and equality could not become a natural course of things"- Dr. B. R. Ambedkar.

2.Define Fundamental Rights?

Fundamental Rights There are certain fundamental rights that are internationally recognised as human rights and that are essential to the dignity, liberty and survival of citizens in a democratic system. Fundamental rights are such rights recognised, protected and enforced by states.Fundamental Rights are those rights which cannot be denied to a person at any cost

3.In which part of our constitution as the Fundamental Rights are included?

Part III of our constitution

4.Timeline of Fundamental Rights

Magna Carta 1215 -The first official document in the world to refer to civil rights and liberties.

United States Bill of Rights - 1789 Bill of Rights mentioned in the world's first written constitution.

Declaration of Human Rights after the French Revolution (Declaration of the Rights of Man and of the Citizen – 1789)

Bill of Rights defining human rights that influenced the nations of the world.

United Nations' Universal Declaration of Human Rights (Universal Declaration of Human Rights-1948) Bill of Rights issued by the United Nations for implementation by all member states

5.What are the factors that influenced the framers of the Constitution to include Fundamental Rights in the Constitution of India?

There are several factors that influenced the framers of the Constitution to include Fundamental Rights in the Constitution of India. The main factor is the denial of rights that the Indian people had to suffer during the British rule. The values upheld by the freedom struggle and the ideas of the Indian Renaissance Movement are other factors that influenced the fundamental rights in the Constitution. The rights mentioned in the constitutions of other

countries and the Bills of Rights which are the precursors of fundamental rights have influenced the fundamental rights in our Constitution

6.In which part of our constitution as the Fundamental Rights are included?

Part III of our constitution

7.Why are certain rights known as Fundamental Rights?Cannot be denied to a person at any cost.

Inevitable for the holistic development of an individual.

Very essential for leading a dignified life. So the Fundamental Rights and their protection are very important in a democratic society.

8. Which country's Constitution influenced the formation of Fundamental Rights in India?

The Bill of Rights in the American Constitution

9. What are the Fundamental Rights in the Constitution of India?

Right to Equality. Right to Freedom. Right against Exploitation . Right to Freedom of religion . Cultural and educational Rights. Right to Constitutional Remedies

10.What are the ideas included in the Right to equality?

Ensure equality before law. Prohibition of discrimination on the basis of caste, religion, race, sex, place of birth, etc.Ensure equality of opportunity in public employments.Abolition of untouchability.Abolition of Titles.

11.Which are the different types of freedom given in the Artice 19 ?

Freedom of speech and expression

Freedom to assemble peacefully, without arms.

Freedom to form associations.

Freedom to travel anywhere in India

Freedom to reside anywhere in India

Freedom to carry on any occupation, trade, or business

12.Elucidate Right to Education Act-2009

Education was declared a fundamental right under Article 21A by the 86th Constitutional Amendment Act in 2002. In 2009, Parliament passed the Right to Education Act. The Act came into effect in April 2010. This Act ensures free, compulsory and quality education for all children between the age group of six and fourteen.

13.How does the right against exploitation protect the citizens?

The Right against exploitation is concerned with the prohibition of the exploitation and equip the individuals for leading a dignified life.

Artice 23- Forced labour and trafficking human beings are prohibited.

Artice 24-Employment of children in factories and other dangerous sectors are forbidden.

14.What do you mean by Right to Freedom of Religion?

The Constitution allows everyone in India the freedom to profess, practise and propagate any acceptable religion. This right includes the freedom to act according to their conscience. The right to freedom of religion guarantees equal treatment and equal protection to all religions.

15.How the Cultural and educational rights help to protect the interest of minorities?

Cultural and educational rights have been included in the Constitution for the protection of the interest of the minority sections. Protection of their language, script and culture.

Religious and languistic minorities have the right to establish and administer educational institutions of their choice.

16.What is meant by Right to Constitutional Remedies?

The Constitution proposes remedial measures if the Fundamental Rights are violated. This is known as the Right to constitutional remedies. As per this right, if the Fundamental Rights are violated an individual can approach either the Supreme Court [Artice 32] or the High Courts [Artice 226] for enforcing them.Writs are orders and directions issued by the Supreme Court or the High Courts for the protection of fundamental rights as per above mentioned articles.

17.What aspects of social life do the directive principles of state policy touch upon? List them.

It is included for achieving Socio-economic justice . Its aim is to establish a welfare state by ensuring the welfare and progress of all sections of the people.These are not enforceable with the support of the courts. Articles 36 to 51 of Part IV of the Constitution contain directive principles. The governments should follow it in administration and legislation.

18.The directive principles of state policy can be classified into three categories, namely, liberal ideas, socialist ideas and Gandhian ideas.

Liberal Ideas	Socialist Ideas	Gandhian Ideas
*Promote international peace and security *Uniform Civil Code for citizens *Equal justice and free legal aid *Provision of care and education for children under six years of age *Environment, livestock	*Wage for livelihood *Equal pay for equal work for men and women *Participation of workers in the management of industries *Right to employment *Ensure regular and humane working	*Organise Gram Panchayats *Fostering cottage industries * Agriculture and animal husbandry *Prohibition of consumption of intoxicating drinks and drugs injurious to health

and wildlife conservation	conditions and maternity benefits	*Uplift of Scheduled Castes and Scheduled Tribes and other weaker sections

20.Identify and write the differences between fundamental rights and directive principles

Both are complementary. Fundamental rights limit the powers of the government while directives compel the government to do certain things.

Fundamental rights mainly protect the rights of individuals. But ensure the welfare. It can be reinstated through the courts. One can approach the Supreme Court or High Court when fundamental rights are violated. It is not possible to approach the court if the directive principles are violated. In the process of democracy, fundamental rights implement political democracy while guiding principles realise socio-economic democracy.

21.“Every Indian must remember that he is an Indian and he has every right in his country but with certain duties" -Sardar Vallabhbhai Patel

22.Write a short note on fundamental duties

The Sardar Swaran Singh Committee was appointed by the Central Government in 1976 to submit recommendations on the fundamental duties of citizens. Article 51A of Part IVA. Deals with Fundamental Duties .It was included in the Constitution as part of the 42nd Constitutional Amendment in 1976. Now eleven duties embedded in the constitution.

* To abide by the Constitution and respect its ideals and institutions,
the National Flag and the National Anthem;
* To cherish and follow the noble ideals which inspired our national struggle for freedom;
* To uphold and protect the sovereignty, unity and integrity of India;
* To defend the country and render national service when called upon to do so;
* To protect and improve the natural environment including forests, lakes, rivers,
wild life and to have compassion for living creatures;
* To develop the scientific temper, humanism and the spirit of inquiry and reform;
* Who is a parent or guardian to provide opportunities for education to his child or, as the case may be, ward between age of six and fourteen years.

Resource Utilisation and Sustainability

1.What is called a resource ?

Anything that is environmentally available, technologically accessible, culturally acceptable and capable of meeting our needs is called a resource.Resources include not only material things like water, air and soil but also non−material things like knowledge and health

2.What is Human resources ?

Resources include not only material things like water, air and soil but also non−material things like knowledge and health

3.On the basis of origin, resources can be mainly classified into natural resources and man−made resources.

Natural resources	**Man−made resources**
Resources obtained from nature. E.g., air, minerals,water,soil	Resources made by human beings E.g., road, machinery,buildins,vehicles

4.Can we use all the natural resources as we wish? Why can't all resources be used the same way?

@ not available everywhere @ runs out with use @ Some are harm to nature

5.The availability and renewability of natural resources varies. Resources can be classified into two categories based on their renewable potential.

Renewable Resources	**Non−Renewable Resources**
Resources that do not get depleted after use and can be reused are renewable resources. These are resources that are continuously produced in nature and are always readily available to man. Sunlight, wind and waves are examples of such resources	Non−renewable resources have been formed over millions of years and they decrease in quantity with use. Examples of such resources include iron, gold, coal, and petroleum.

6.what are Minerals ?

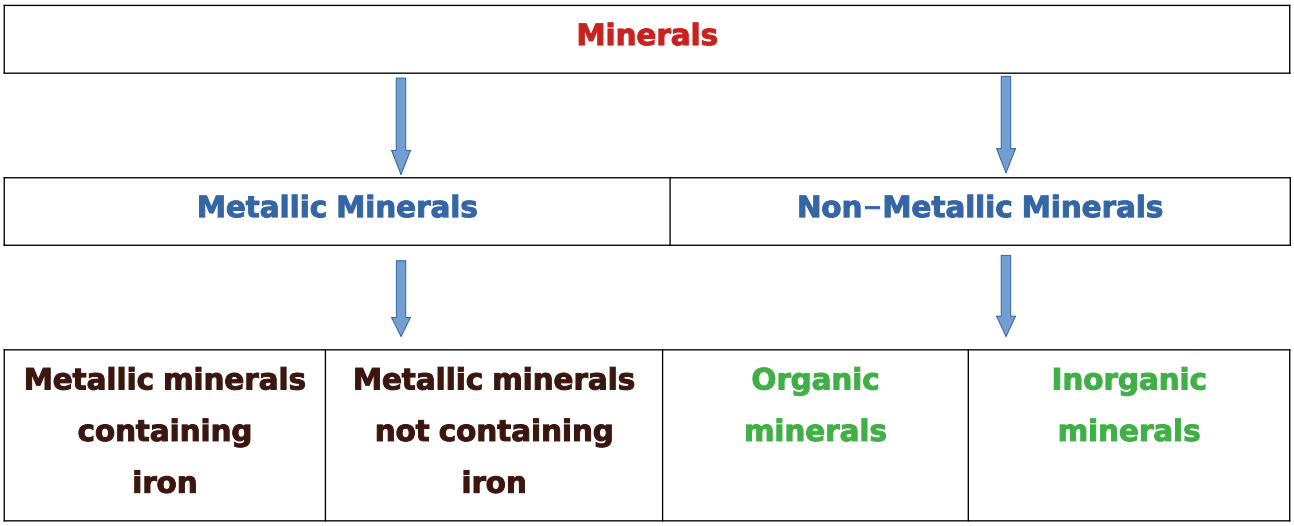

Minerals are naturally forming organic and inorganic substances with chemical and physical properties. Examples include petroleum, iron ore, and bauxite. We cannot use these minerals directly.

7.Define Ores?

Minerals found in the Earth's crust in the form of ores become usable only after mining and processing. Minerals which will be mixed with impurities are mined from the

earth in raw form. This is called ore. These ores can be converted into valuable minerals only through refining processes

8.Minerals can be classified into two types based on their composition and physical characteristics.What are they ?

9.Explain Metallic Minerals

Metallic minerals are naturally occurring substances in nature that contain traces of metal. The metal extracted from the metallic minerals through the refining process is usually hard and lustrous. An example of this is the extraction of aluminium from bauxite. Metallic minerals are classified into two types based on the presence of iron.

10.What are the features of Metallic Minerals

Ferrous metals	Non–ferrous metals
appear grey magnetic in nature heavy	appear in different colours non–magnetic relatively light weight

11.Elucidate Non–Metallic Minerals

Minerals that do not contain metals are called non–metallic minerals. For non–metallic minerals properties such as hardness, lustre and ductility are relatively low.

12.Non–metallic minerals are classified into two groups what are they ?

Organic minerals and Inorganic minerals. Biominerals such as coal and petroleum contain organic components whereas inorganic minerals such as graphite and clay contain inorganic components.

13.Uses of the given metallic and non–metallic minerals

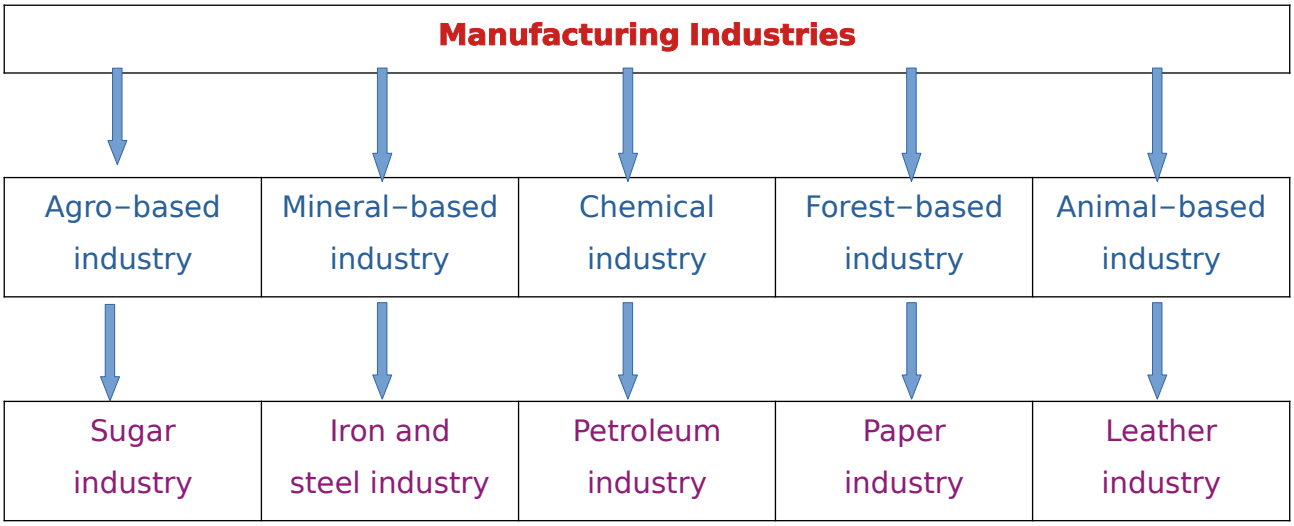

Metallic minerals and uses	Non–metallic minerals and uses
iron – construction gold –ornaments,medicine copper –electric equipments,utensils	graphite – pencil making petrol –fuel clay – pottery making,bricks

14.Major minerals and the states where they are distributed.

Minerals	States
Gold	Madhya Pradesh, Andhra Pradesh, Kerala, Karnataka and Jharkhand
Iron	Odisha, Jharkhand, and Chhattisgarh,Goa, Madhya Pradesh, Maharashtra, and Uttar Pradesh
Coal	Jharkhand, Odisha, Chhattisgarh, West Bengal, and Madhya Pradesh
Manganese	Madhya Pradesh, Maharashtra, Odisha, Karnataka, Andhra Pradesh

15.Write a short note on Manufacturing Industries in India

Minerals are useful for humans. These minerals play an important role in the country's production and industrial sectors. Minerals which are extracted through different refining processes are the main raw materials for industries. On the basis of raw materials, manufacturing industries can be mainly classified as follows

16.Complete the table based on Major manufacturing industries

Major manufacturing industries	States
Iron–Steel Industry	Odisha, West Bengal, Chhattisgarh
Cotton Industry	Gujarat, Maharashtra, Telangana, Andhra Pradesh, and Madhya Pradesh
Petrochemical Industry	Gujarat, Maharashtra, Andhra Pradesh, Tamil Nadu, and Odisha
Silk Industry	Karnataka,Andhra Pradesh,Tamil Nadu,West Bengal

17.The iron and steel industry is the foundation of industrial development and Indian economy .Evaluate the statement.

The iron and steel industry is called a basic industry as it provides the raw materials and products required for other industries. Iron and steel industry is also known as heavy industry. India is one of the largest producers of iron and steel in the world.The iron and steel industry supports the other industries and service sectors and increases the country's income. In addition, by creating employment opportunities, the standard of living of the people is also raised. In this way, the iron and steel industry plays an important role in the growth of the Indian economy

18.The first modern iron and steel industry in India; Tata Iron and Steel Company (TISCO) started in 1907 was established at Sakchi (Jamshedpur).

19.During the Second Five–Year Plan, three integrated iron and steel projects were started in

Iron and steel projects	Funded by
Bhilai	Soviet Union
Rourkela	Germany
Durgapur	Britain

20The iron and steel industries and the states

State	Iron and steel industries
Odisha	Rourkela, Paradweep, Kendujhargarh
Chhattisgarh	Raigarh,Bhilai Chandrapur
Andra Pradesh	Visakhapatnam
jharkhand	Bokaro,Jamshedpur
West Bengal	Durgapur

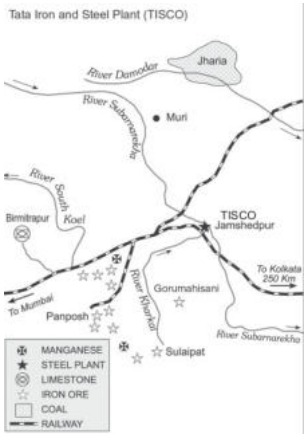

21.Factors Influencing the Distribution of Manufacturing Industries

Factors	
Geographical factors	**Non–geographical factors**
Topography,weather,water energy,raw materials	Capital,organisation,market,government policies,transportation,availability of

	labourers

22.Identify the factors that influenced the Tata Iron and Steel Plant from the figure

* availability of water (river)
* proximity to port (Kolkata)
* market (Kolkata, Mumbai)
* proximity to raw material deposits like iron ore, coal
* Transport Facilities
* Availability of Labor

23.What are the consequences of the manufacturing industries

Pollution ,Resource Depletion,Regional Inequality,Migration,Urbanisation are the consequences of the manufacturing industries.

Pollution is the undesirable consequences on the physical,chemical or biological characteristics of air, water and soil.Unscientific human activities cause pollution. This threatens the sustainability of the Earth and affects the regenerative capacity of the environment.

24.What are the Various Types of Pollution

Air Pollution	The smoke emitted from industries which contain toxic gases such as sulphur dioxide, carbon dioxide, carbon monoxide and methane, pollute the atmosphere. This poses a serious threat to nature and human health.
Water Pollution	Waste water discharged from industries and toxins from chemical industries pollute rivers, lakes and other water bodies. It harmfully affects aquatic life and humans.
Soil Pollution	The waste and e−waste emitted from industries alter the natural structure of the soil. This has a detrimental effect on the agricultural sector and the environment.
Noise Pollution	Excessive noise emitted from industries adversely affects the physical and mental health of the people in the surrounding areas.

Resource Depletion−Unscientific use of resources in industries to increase production leads to resource depletion and environmental problems. Examples include deforestation, loss of soil fertility, and depletion of water and mineral resources.

Regional Inequality– The unbalanced distribution of natural resources and inadequate basic facilities have resulted in a concentration of industrial development in certain regions. Differences can be seen in the income and living standards of the people in these areas. This causes regional disparity in industrially backward areas.

Migration– Migration is the permanent or temporary movement of people from one region to another. People migrate from less developed areas to developed industrial areas for employment and better living conditions. It caused population density in this area.

Urbanisation – Urbanisation is the increase in size and population of cities as a result of migration from rural areas to urban areas and natural population growth in cities. This has led to a massive increase in the size and population of cities and it results in socio– economic and environmental changes.

25.What do you mean by Conservation of Resources ?

Conservation of resources is the process of ensuring their availability by avoiding over–exploitation through judicious use. The objectives of conservation of resources are to conserve resources for future generations, maintain the balance of the environment, and minimise impacts on nature and human beings.

26.What are the main resource conservation methods.

recycling of resources # water conservation # energy conservation # forest conservation # reuse of resources # soil conservation

27.Elucidate Sustainable Development

It aims to meet the needs of the present without compromising the ability of future generations to meet their own needs. Economic growth can be achieved through a balance between the welfare of the environment and the standard of living of the people. Recycling, reducing usage, and reusing resources are ways to achieve sustainable development. The Sustainable Development Goals are a collection of seventeen goals proposed by the United Nations in 2015 to achieve them by 2030.

Media and Social Reflections

1.What is Mass media ?

It refers to different forms of communication that can simultaneously reach many people. These include newspapers, magazines, radio, television, the Internet and social media.

2.Complete the list indicating what is included in different media for communication.

Print media	Radio	Television	Internet

News articles editorials advertisements.	Announcements weather forecast Music News	entertainment programmes cinema Music News	online news e−commerce News advertisements. Blog

3.Media play an important role in the daily life of Us.Evaluate the statement?

Media play an important role in developing reading and writing skills in individuals. Individuals come into contact with written language through newspapers, magazines, blogs, and social media. This encourages reading. Interactive platforms like social media, blogs, and online forums allow individuals to reflect and share their thoughts. Media, libraries, book clubs, and online writing communities foster reading, writing, and culture. The mass media accelerate social progress. The advancement of technology has led to the evolution from print media to digital media.

4.List the different Forms of Media

Media are an important means of communication for shaping social relations and ensuring interaction . Through media groups and institutions interact in social life. Media can be classified in many ways based on usage

$. **Print Media**

The relevance of print media, like newspapers, magazines, and books, is also significant in the digital age. These provide comprehensive news, features, and literary works to the community. A reliable and immensive reading experience is available through print media. These can be stored for future re−reading. In this context, communication is only possible from print media to readers.

$ Broadcast Media

Broadcast media, such as radio and television, convey ideas to a large number of people simultaneously. In this case, communication is possible only in one direction. The possibility of interaction is also limited here due to the delay in recording feedback on broadcast programmes. News, music, discussions, debates, and sports are available through broadcast media. Although digital platforms are evolving, broadcast media influences a large segment of the population and shapes public opinion.

How do you convey your opinions about radio and television programmes to the broadcasters?

through letters # through emails # Phone calls

$ Digital Media

With the advent of the Internet, many revolutionary changes took place, and digital platforms came into existence. Websites, online news, and blogs started bringing live reports to the masses. This has led to an increase in social interaction through media. It has provided an opportunity to share and discuss the content of information.

@Social Media

Social media have become an integral part of the lives of modern people. Interpersonal relationships and social interactions are more common on social media. Social media are online platforms that allow consumers to create, share, and interact with content such as text, images, and videos. Through various forms of communication, such as direct messaging, feedback, and general sharing, social relationships and social gatherings are facilitated. Social media play an important role in shaping public opinion, promoting social interaction, and influencing cultural and political movements.

Complete the table based on Different Forms of Media

Different Forms of Media	
Traditional Media	**New Media**
Print media–newspapers, books, etc. **Broadcast media**–radio, television, etc.	**Digital media**–websites, online news papers, blogs, etc. **Social media**– photo–video sharing platforms, online discussion forums

5.How traditional media and new media differ.

Features	Traditional Media	New media
Communication	one–way communication	two–way communication
interaction	interaction is limited	high interaction and participation
Form	physical form (newspaper,radio, television)	digital form (internet–enabled devices)
recipients	limited participation	creative participation
availability	not always available due to time	without limitation of time

	available internationally and location limitations	and location
Speed and Timeliness	Has a longer production and distribution cycle	Offers real–time updates and instant delivery.

6.Compare role or impact of Media and Social media

Media	Social media
Media play an important role in shaping society by influencing public opinion, social norms, and cultural values. Traditional media such as newspapers, radio and television provide entertainment, communication and knowledge. Meanwhile, new media enable greater communication and increased participation.	Social media interaction has a positive impact on interpersonal relationships. However, according to sociologists, such interactions have a negative impact on society. Although social media facilitate short–term interactions, they fail to engage in meaningful and sustained relationships.

7.List the problems that excessive use of social media creates.

* It adversely affects students' learning and their physical and mental health.
* The excessive use of media creates distance in personal and social relationships.
* Social and Behavioral Problems * Affecting Self–Image

8.Both traditional and new media have become an integral part of modern society. Examine how different forms of media influence our social lives.

Media & Socialisation

Socialisation is the process of learning from our environment how to live and behave in society from childhood. For example, when we are children, we learn from our parents the value of respecting elders. Family, school, friends, and media help in socialisation. Media exert their influence on how we must intervene in society, what we should desire and in personality development. Social values and attitudes which are transmitted from one generation to the other are transmitted through media as well.

Media and Public Opinion Formation

Public opinion is formed through the media during elections and foreign policy deliberations. In this way, the media act as an important tool in forming public opinion and gaining consensus.Digital tools such as social media, websites, and online

campaigns are also used to bring social, political, or environmental issues to the public Social media platforms fuel public interventions by enabling avenues for communication and instant resource mobilisation. Various hashtag (#) campaigns on social media, awareness programmes and fundraising are some examples.

Media and Consumption Behaviour

The media are a storehouse of food advertisements and cookery shows. Advertisements related to many such fields can be seen in the media. The media fuel the growth of the global economy by advertising, announcing job opportunities, and increasing consumerism. Advertisements and other programmes through the media are influential in shaping our consumption behaviour.

Media and Stereotypes

Stereotypes are statements with generalised preconceptions. Stereotypes are simple, generalised beliefs or ideas about individuals based on race, gender, culture, colour, and the like. Stereotypes are reflected in serials,advertisements,videos, movies,reels. Various forms of media such as films, news, and social media shape and reflect social attitudes. The media influence public opinion and reinforce social norms. Through this,they play an important role in forming and maintaining stereotypes.

Media and Social Interventions

It can be seen that the media are involved in bringing various social problems to the public and speeding up the steps to solve them through various levels.

Media and Technology

9.What changes has artificial intelligence created in society?

Technology and media are intertwined. Advances in technology have given rise to new forms of media. Developments in this field have led to the emergence of new media such as social media platforms, online news portals, and streaming services. This has led to major changes in the production, distribution and consumption of information. Technology increases the accessibility of media. It also enhances global communication by creating opportunities to engage with content anytime, anywhere. Innovations such as artificial intelligence, big data and algorithms are the driving forces of our personal and societal development.

Digital Etiquette

10.What is Digital Etiquette ?

News related to some false information that comes in the digital media is given here. Irresponsible use of digital media creates conditions for fraud, defamation, crimes, and dangers. Digital etiquette includes guidelines for

communication. Digital Etiquette refers to the proper and respectful behaviour that individuals are expected to follow while interacting in digital spaces.

11.Digital etiquette includes guidelines for communication What are they?

@ respect others' privacy @ avoid abusive language @ be careful of the messages in digital spaces @ be careful when sharing posts @ Security and Responsibility. @ Don't Spread Misinformation

12.Digital etiquette promotes positive and effective online interaction. These should be accepted as social norms. What are the benefits we gain by practising digital etiquette ?

* respectful communication is possible * provides clarity and understanding in communication * forming positive online communities * cyber crimes decrease * leading society towards safer digital spaces * supports digital literacy

National Movement and Kerala

The Trumpet Sounds for the Preparation of War

1.Prepare a short essay on Pazhassi revolt

Pazhassi Raja, a member of the Kottayam royal family in Northern Malabar, initially aided the British against the Mysore rulers. In exchange, he was promised the power to collect taxes in his region. However, after Malabar came under the control of the English East India Company via the Treaty of Srirangapatnam, the situation changed.The British reneged on their promise and handed the tax collection authority in Kottayam to Pazhassi's loyal uncle, Veera Varma, the Kurumbranadu king. Protesting this act of neglect and broken agreement, Pazhassi Raja urged his people not to pay taxes to the new British-backed collectors. This direct defiance over the right to revenue collection marked the beginning of the conflict between Pazhassi Raja and the British.

2.what are the defensive strategies Pazhassi adopted against the English East India Company.

* The base was shifted to Wayanad * The local people were added * Guerrilla warfare was waged

3.Name the leaders who gave support to Pazhassi.

Kurichya leader Thalakkal Chandu, Nair Chief Edachena Kunkan, Kaitheri Ambu, Kannavath Sankaran, and Pallur Eman provided strong military support to Pazhassi.

4."The British realised that it would not be easy to defeat Pazhassi, who had put up a strong defence with the support of the people in Wayanad " Examine

* They took various measures against him. * Military camps were set up at strategic places * New roads were built l Rice supply to Wayanad was cut off * A reward was announced for those who nab the participants in the rebellion.

5. When did Pazhassi attain a valiant death in an encounter with the Company's army in the year?

November 30, 1805 at Mavilamthode in Wayanad

6.Who was the Sub-Collector of Thalassery who killed the commanders who were the strength of Pazhassi, ?

Thomas Harvey Baber

7.The tomb of Pazhassi situates at ?

Mananthavady

The Dalawa Who Raised the Proclamation

8.Write a short note on Velu Thampi and his resistance against the British.

Velu Thampi, the Dalawa (Prime Minister) of Travancore under Balarama Varma Maharaja, faced direct conflict with the British Resident, Macaulay, after a 1805 agreement ended Travancore's political freedom. Macaulay, taking control of the administration, cancelled Velu Thampi's orders and demanded immediate payment of tax arrears owed to the English East India Company. Facing similar pressure, Paliath Achan, the Prime Minister of Kochi, secretly allied with Velu Thampi. Their combined forces of Travancore and Kochi launched a joint attack on Macaulay's camp in Kochi, but Macaulay managed to escape.

9.What do you mean by 'Kundara Proclamation.'

On 11 January 1809, Velu Thampi issued a proclamation at Kundara in Travancore, calling on the people to prepare for an armed struggle against the British dominance. This proclamation is known as the 'Kundara Proclamation.'

10. Briefly explain the key events and ultimate fate of Velu Thampi Dalawa after his conflict with the British escalated and he lost the Travancore King's approval?

Although the Travancore king did not approve of such actions of Dalawa, Velu Thampi continued to fight against the British with the support of
the locals. The defeat by the company's army and the withdrawal of his ally Paliath Achan from the alliance were major setbacks for the Dalawa. The king removed him from the position of Dalawa. When the joint army of Travancore and the company surrounded the house at Mannadi, where Velu Thampi had sought refuge, he committed suicide instead of surrendering to the foreign power.

Paliath Achan and Kochi

11.Examine what circumstances prompted Paliath Achan to fight against the British.

Paliath Achan, the Prime Minister of Kochi, with Travancore. had opposed the interference of the British Resident Macaulay in the internal affairs of Kochi. Besides, Macaulay gave shelter to an enemy of Paliath Achan which worsened the situation. Then Paliath Achan joined hands with Velu Thampi, and launched a struggle against the British. Although he resisted the British strongly, he was eventually exiled to Madras by the British.

Kurichyar Rebellion - A Heroic Story of Resistance

12.Give a brief account on Kurichyar Rebellion

The Kurichyar and Kurumbrar are tribal groups in Wayanad. The British considered them enemies after they supported Pazhassi in this rebellion.

The measures taken by the British against the Kurichyar and Kurumbrar were

* The tribal people's tracts of land were seized * They were not allowed to continue their

traditional methods of farming* The British demanded money instead of goods as tax.

The Kurichyar rebellion began in 1812. The tribal people fought against the British by taking control of the routes to Wayanad and by gaining local support. Rama Nambi or Rama Mooppan was their leader. They directly attacked the British

army stationed at Sultan Bathery and Mananthavady. But it was suppressed

Peasant Discontent - Leads to Rebellion

13.Why did the farmers protest against the landlords and the British government?

There was protest and violence by farmers against the exploitative landlords and the British government. Since most of the participants were Mappila farmers of South

Malabar, the British authorities and imperial historians referred to these uprisings as the 'Mappila riots.' British government's tax policies, exploitation and eviction of landlords were the causes of these riots

Social Reform Movements

14.Write a note on Social Reform Movements

It was a society where superstitions and customs were widespread. A person's social status was determined by the caste in which he was born. As part of caste discrimination, many social evils such as untouchability, unapproachability and travel bans

existed in Kerala.It aimed the equality and equity.

15.Compelte the table on Social Reformers and Their Main Activities

Social Reformers	Main Activities
Vaikunta Swamikal	He performed first kannadi prathishta in south india by exposing irrationality of idol workship
Sree Narayana Guru	He was the foremost reformer who worked for social change in Kerala. He fought against superstitions and caste discrimination.He Sree Narayana Guru proclaimed, 'become enlightened through knowledge.' 'become enlightened through knowledge.' He performed 'Shiva prathishta' at Aruvippuram and described this temple : " It is a model place where people live without caste disparity or religious aversion, but with fraternity". His visions influenced reformers ike Sahodaran Ayyappan, Mahakavi and Kumaranasan, Dr. P. Palpu T. K. Madhavan. Movement: Sree Narayana Dharma Paripalana Yogam
Kuriakose Elias Chavara	He was a social reformer and educational activist.He

	established orphanages and underprivileged.
Chattampi Swamikal	Opposed the caste system and irrational customs. His writings were valuable contributions to the Malayalam language and literature
Ayyankali	Fought for the rights, self-respect, freedom of travelling and education of the oppressed sections of society. The Villuvandi strike and the Kallumala strike were important strikes led by him. Movement: Sadhujana Paripalana Sangham
Vakkom Abdul Khader Moulavi	Worked for the cultural renaissance of the Muslim community. He Vakkom Started the Swadeshabhimani newspaper to expose the vanity of the monarchy. Movement: Travancore Muslim Mahajana Sabha
Mannath Padmanabhan	Worked for social and educational progress of the Nair community. He led the struggles to achieve civil rights in Kerala. Movement: Nair Service Society
Poikayil Yohannan	Fought against social evils like casteism and slavery. Movement: Pratyaksha Raksha Daiva Sabha
V. T. Bhattathiripad	He was known as a reformer of the Namboodiri community, social worker and writer. He wrote the famous play Adukkalayil Ninnu Arangathekku. Movement: Yogakshema Sabha
Pandit K. P. Karuppan	A poet and playwright, he worked for the upliftment of the backward classes. Movement: Araya Samajam
Vagbhatananda	Promoted critical thinking based on logic. Tried to reform customs according to the changing times.

Struggles for Civil Liberty

16.Prepare a note discussing the social situation that led to the struggle for the right to wear upper cloth.

The women of the Channar community of South Travancore did not have the right to wear upper cloth . The Channar women, who appeared in public places wearing upper cloth with the support of Christian missionaries, were attacked by those who were considered to be the upper caste and their upper cloth was torn off. Subsequently, riots broke out in many places in Southern Travancore. On July 26, 1859, the Maharaja of Travancore issued a decree removing restrictions on Channar women to wear upper cloth.

17.Prepare a newspaper report related to the Vaikom Satyagraha.

The Vaikom Satyagraha was a major struggle for the freedom of travelling that took place in Kerala when the national movement was gaining strength. The people who were considered inferior were not allowed to walk on the approach roads of Vaikom temple. The satyagraha began on March 30, 1924, in protest against this discrimination. This satyagraha was led by T. K. Madhavan, K. Kelappan, K. P. Kesava Menon and others. The Vaikom Satyagraha, which attracted national attention, ended with the mediation of Mahatma Gandhi. On November 23, 1925, all the roads on all three sides of the temple were opened to all Hindus.

18.How did all sections of Hindus be allow to enter the Guruvayur temple?

A movement that demanded all sections of Hindus be allowed to enter the Guruvayur temple. The Satyagraha began on 1 November 1931 with the formation of a committee under the leadership of K. Kelappan and Mannath Padmanabhan. When the protest intensified, the authorities were forced to close the temple. The volunteer captains of the movement, A. K. Gopalan and P. Krishna Pillai, were brutally beaten by opponents of the Satyagraha. When K. Kelappan began a 'fast unto death' in front of the temple, many people came from different places to support it. Finally, the fast was ended on the instructions of Gandhiji. When the Congress held a plebiscite in Ponnani taluk to ascertain public opinion about the temple entry, the majority of the people supported it. In this way, the Guruvayur Satyagraha helped to create a favourable atmosphere for the entry of all sections of Hindus to the temple

19.Give an account on Paliyam Satyagraha

The Paliyam Satyagraha of 1947-48 was another protest in Kerala for the abolition of untouchability. The marginalised sections of the people were prohibited from walking on the road in front of the residence of Paliath Achan at Chennamangalam in Kochi. The Palyiam Satyagraha was organised by political parties and community organisations in protest against this injustice. The government responded with arrests and torture to suppress the satyagraha led by C. Kesavan and others. In 1948, when all the temples in Kochi were opened to everyone regardless of caste.

The Flame of Protest of National Consciousness

20.The national movement was more active in Malabar than in other parts of Kerala. Evaluate

Formation of the Malabar District Congress Committee and the activities of the Home Rule League propelled the national movement forward. The Khilafat and Non-Cooperation Movements received strong support. As part of the struggle, people boycotted foreign-made goods, courts, schools and other government institutions. The strike witnessed active participation of women and students. The prominent leaders during the time were C. Kunhirama Menon, K. Kelappan, U. Gopala Menon,

K. P. Kesava Menon, Muhammed Abdur Rahiman Sahib, E. Moidu Moulavi and Moyarath Sankaran. Impact of Salt satyagraha was also felt in Kerala. The centre of the Salt Satyagraha in Kerala was Payyannur in Malabar. The satyagraha was led by K. Kelappan.

21.What do you mean by Malabar Rebellion

The Malabar Rebellion was an anti-British and anti-landlord movement in Malabar. When the tenant movement, which was already active in Malabar, was merged with the Non-Cooperation and Khilafat movements, it evolved into the Malabar Rebellion. In 1921, the rebellion spread to the taluks of Eranad, Valluvanad, and Ponnani. Many people, including landlords, government officials and rebellious peasants lost their lives. The British government suppressed the rebellion using the Malabar Special Police and the army. Prominent among those who led the Malabar Rebellion were Ali Musliyar, Variyankunnath Kunjahammed Haji and M. P. Narayana Menon.

22.Malabar also centre of Quit India Movement. Prepare a brief description

The Quit India Movement, which began across India on August 9, 1942, resulted in the arrest of prominent leaders, including Gandhiji. As a result, it became a violent movement unlike other Gandhian movements. The people of Kerala—including women and students—actively participated in the movement in Malabar, Kochi and Travancore regions. The Keezhariyur bomb case is a major incident that took place as part of this.

23.Briefly explain Political movements in Kochi

Since the establishment of the British sovereignty in Kochi, which was a princely state, there had been popular protests against it. The initial protests were aimed at establishing good governance. Later, protests began to gain political rights.

24.Prepare a short note on Electricity Strike

The Diwan of Kochi, R. K. Shanmukham Chetty, decided to hand over the electricity supply of Thrissur to a private company. In 1936, there was a popular uprising against the decision. Although the government suppressed the protest, this strike helped mobilise people to the forefront of protest.

25.List the founders of Kochi Rajya Praja Mandal and its activities

An organisation named Kochi Rajya Praja Mandal was formed in 1941 with the aim of achieving responsible government. Ikkanda Warrier, Panampilly Govinda Menon and V. R. Krishnan Ezhuthachan led the activities of the Praja Mandal. It was decided to hold a nationwide protest to achieve responsible government and 29 July 1946 was observed as “Responsible Government Day.” Later, the Praja Mandal merged with the Indian National Congress. Ikkanda Warrier became the Prime Minister, and the first Congress ministry came to power in Kochi.

26.Substantaite the role of the Malayali Memorial and the Ezhava Memorial for awakening the political consciousness of the people in Travancore.

Malayali Memorial	Ezhava Memorial
Demand for adequate representation of people of Travancore in government jobs in Travancore. On 1 January 1891, a petition signed by the people was submitted to the Maharaja, stating this demand. Leadership - G. P. Pillai	Demand for adequate representation of Ezhava community in government service lOn 3 September 1896, a petition signed by members of the Ezhava community was submitted to the Maharaja. Leadership - Dr. P. Palpu

27.What do you mean by Abstention Movement

The 1932 'Nivarthanam' or Abestention Movement was a powerful political agitation that took place in Travancore. The Christian, Muslim, and Ezhava communities formed a political committee and led the movement jointly. They demanded proportional representation in government jobs and in the Legislative Assembly. C. Kesavan, N. V. Joseph and P. K. Kunju led the movement. The activities for responsible government in Travancore were carried out under the auspices of the Travancore State Congress. Pattom Thanu Pillai was the first president of the Travancore State Congress. They organised the agitation through petitions and direct action protests.

28.Give an account on Congress Socialist Party

The Congress Socialist Party In 1934, Congress workers who were interested in socialist ideas, met at Kozhikode under the presidency of K. Kelappan. They decided to form a 'Congress Socialist Party' within the Indian National Congress. P. Krishna Pillai, E. M. Sankaran Namboothiripad and A. K. Gopalan led this faction. Several peasant struggles took place in Kerala under the leadership of the Congress Socialist Party.

29.Prepare a short note on role of women in freedom struggle Kerala

When the national movement gained strength through protests such as Non-Cooperation and Civil Disobedience, women in Kerala actively participated in the struggles. Embracing Gandhiji's message, women were active in salt production, boycotting foreign clothes, and weaving and wearing khadi clothes. During the struggle period, there was also notable participation of women in the activities of eradicating untouchability and uplifting Harijans. Many women were imprisoned as part of the struggles. During this period A. V. Kuttimalu Amma and Ammu Swaminathan in Malabar and Akkamma Cheriyan and Annie Mascarene in Travancore led the national movement.

30.Examine the important events that led to the formation of an Aikya Kerala.

The Aikya Kerala movement for a unified Malayalam-speaking state gained momentum starting with the 1921 All Kerala Provincial Conference at Ottapalam, attended by representatives from Malabar, Kochi, and Travancore. A key demand came in 1928 at the Payyannur Congress Conference, chaired by Jawaharlal Nehru, which called for Kerala's reorganization as a separate state in independent India.

Progress toward this goal included the formation of Thiru-Kochi by merging Travancore and Kochi on July 1, 1949. Finally, based on the linguistic reorganization recommendations of the Fazal Ali Commission, the state of Kerala was formed on November 1, 1956, by merging Malabar and Thiru-Kochi. The reorganization also involved ceding the Travancore taluks of Thovala, Agastheeswaram, Kalkulam, and Vilavancode to Madras State (now Tamil Nadu) and adding the Kasaragod taluk from South Karnataka to Kerala.

Democracy: Meaning and Scope

1.Define the following

Democracy - Democracy is not only a system of government but also a value. Democracy is built on the foundation of ideas such as Liberty, Equality, Justice, and Rights.

Constitutionalism- Democracy consists of governments that respect values and do not intrude upon them. This means that there are limits to the activities of the government. These limits are set by the constitution. Therefore, we can also call modern democracy a Constitutionalism.

2. The origin of the democratic system can be traced to?

City-states of ancient Greece.

3.The word 'democracy,' meaning the power of the people, is derived from ?

It is derived from the Greek words 'Demos' meaning people, and 'Kratos' meaning power.

4. Examine the democratic system that existed in Athens ?

Athens had a culture that valued individual freedom and individual ability. All decisions concerning the state were made directly by the citizens. Similarly, the military leaders and judges were directly elected by the people. In this way, the democratic system in which the people directly participate in governance and law-making is called Direct Democracy. However, its greatest limitation was that slaves and women did not participate in the democratic system that existed in Athens.

Direct Democracy: In the Contemporary World

5.Direct democracy in its complete form cannot be seen anywhere in the world today. However, some of its devices still exist in many democratic systems.What are the Devices of Direct Democracy?

Referendum	Recall	Plebiscite	Initiative
A process in which laws passed by the legislature are	The process of removing elected representatives	A method used to ascertain the will of	A way for people to directly intervene in law-

submitted to the people for their approval through voting.	from office when their performance is unsatisfactory. This is implemented by a written request from a specified percentage of voters.	the people on very important public issues.	making. They submit to the legislature either a draft or complete version of the law they desire.

6.Where does direct democratic devices still exist?

Switzerland

Indirect Democracy or Representative Democracy

7.What do you mean by Indirect Democracy or Representative Democracy

Representative Democracy is a system where citizens elect representatives to govern. The form we know emerged in Europe during the eighteenth and nineteenth centuries, notably driven by the rise of the British Parliament. British parliamentary democracy gained strength through its conflicts with the monarchy, establishing a system where the government, a Council of Ministers, is collectively responsible to the Parliament. Key milestones in its development include the establishment of adult franchise and civil rights. The French Revolutionary ideals of Liberty, Equality, and Fraternity also made significant contributions to the core values of this democratic system.

8. Complete the table by comparing Direct Democracy with Indirect Democracy.

Direct Democracy	Indirect Democracy.
# The people rule directly. # High level of direct involvement by all eligible citizens. # Best suited for small communities or states with smaller populations (e.g., Ancient Athens, Swiss cantons). # Can be slow and time-consuming due to the need for mass participation and deliberation on every issue.	# The people rule through representatives. # Lower level of direct involvement; citizens primarily participate through elections. # Highly practical and necessary for large modern nation-states with millions of citizens (e.g., India, USA). # Generally more efficient and faster, as representatives can dedicate full time and expertise to governance.

Parliamentary System and Presidential System

9.Democratic systems are classified in this way based on the relationship between the executive branch and the legislature. Let us examine their features.

$ Features of the Parliamentary System

The executive branch is controlled by the legislature.The powers of the head of the state are nominal .The head of state is the King/Queen/President.The head of government is the Prime Minister. The Prime Minister is the leader of the party that has the majority in the legislature.The council of ministers , headed by the Prime Minister, is collectively responsible to the legislature

@ Features of the Presidential System

The executive branch and the legislature are separate.The President serves both as the head of state and the head of government. All executive powers are vested in the President.The President is directly elected by the people.The President is not accountable to the legislature.

10.Prepare a note on the merits and demerits of the Parliamentary System

Merits	Demerits
* Harmony Between Executive and Legislature * Responsibility and Accountability * Flexibility * Better Representation	*Unstable Government * Tyranny of the Cabinet (or Party) * No Separation of Powers * Party Politics Dominance

11.Prepare a note on the merits and demerits of the Presidential System

.

Merits	Demerits
Stable executive	Autocratic
Better policy implementation	Irresponsible
Direct reflection of people's choice	Lack of co-operation
Better administration	Lack of accountability

Basic Factors of a Democratic System

13.What are the basic factors of a Democratic System. Explain

Freedom (Liberty),Equality,Justice,Rights,Rule of Law,Separation of Powers,Election and Representation,Secularism,Political Parties,Opposition

14.What is Freedom (Liberty) ?

It is necessary factors for democracy to exist as a political and social order. Freedom is defined as the absence of restrictions. That is, a state devoid of any external restrictions on individuals. Freedom also has a creative dimension. In this sense, an opportunity to develop the capabilities of individuals can also be defined

as freedom.The important freedoms are freedom to move, freedom to organise, freedom to assemble and freedom to express. Of these, freedom to express serves as the foundation of democracy.

15.Differentiate Freedom and Restrictions.

Freedom is not complete in the absence of restrictions. Therefore, some instructions and rules that individuals should and should not do are necessary for social life. It restricts the intrusion upon another person's freedom. The value of freedom becomes meaningful only in a system where each individual respects the freedom of others. The thought that one's own opinions and beliefs are more powerful than those of others leads to conflicts. In such cases, legal and political restrictions are needed.

16.What are the different ways that individuals use to express their ideas?

Conversation. Pictures. Social media posts. Trolls

17.What is meant by Equality?

Equality is a fundamental democratic value recognizing the inherent worth of all individuals and demanding the absence of discrimination based on factors like religion, gender, or race . This principle underpins universal human rights. Crucially, equality does not mean treating everyone identically; instead, it adopts a broader meaning by accommodating individual abilities or circumstances. Therefore, acknowledging excellence, such as giving awards for achievements like a literature prize or a sports medal, is not a violation of equality.

18.Complete the table on the three Dimensions of Equality

Political Equality	Social Equality	Economic Equality
Right to vote Right to contest elections Right to hold public office	Non-discrimination Equal status Equal opportunities	Right to work Equal pay for equal work Right to leisure

19.Briefly explain Justice and the three Principles of Justice

Justice is one of the basic values of democracy. The concept of justice changes over time. In the modern view, justice means giving equal and due consideration to all individuals as human beings. Three Principles of Justice

Recognition of Special Needs	Equal Treatment for Equals	Proportionate Justice
In a society where inequality exists, the weaker section and the backward can enjoy	As human beings, all individuals deserve equal rights and equal consideration No	Justice should be proportionate to the ability and contribution of each person Recognition

equality only if special rights are granted lMethods such as reservation can be adopted to ensure equality	discrimination on the basis of class, caste, religion, gender, or race	of Special Needs There is no injustice in treating each person separately according to their ability

20.Write a short note on rights

Rights are fundamental to democracy and a dignified human existence. It distinguishes between a mere "claim" and a legally recognized "right." The text also notes that some thinkers believe in inherent "natural rights" (like life, liberty, and property) that predate the state. Many constitutions formally recognize these rights through a Bill of Rights, with Part III of the Indian Constitution serving as an example.

Different Types of Rights are

Political Rights	$ Right to vote $ Right to contest elections $ Right to hold public office $ Right to criticise the government
Civil Rights	$ Equality before the law $ Right to a free and fair trial $ Right to assemble and organise $ Freedom of expression
Economic Rights	$ Right to work $ Right to receive minimum wages $ Equal rights over the resources and property of the state
Cultural Rights	$ Right to preserve language and script $ Right to educate in the mother tongue $ Right of indigenous people to preserve their cultural heritage

21.Elucidate the term Rule of Law

The rule of law is one of the basic values of democracy. The essence of the rule of law is that everyone is equal before the law and everyone will receive equal legal protection. The general laws of the country will apply equally to everyone. There will be no special laws for any group. Similarly, the government can fulfil its duties only through the process and principles prescribed by the legal system.

22.Briefly explain Separation of Powers

The separation of powers among the branches of government, namely the legislature, the executive, and the judiciary, is very important in a democratic system. These three branches, while remaining independent in their respective areas, also check the activities of the other branches. If all these powers are concentrated in a single branch, it will lead to tyranny and endanger the freedom and rights of the people.

23.What are the role of Election and Representation in the democratic system ?

The modern democratic countries generally follow an indirect democratic system. In

indirect democracy, the rule of the people means that the representatives of the people rule for the people. Election is the system adopted to elect the representatives

of the people. Elections should be free, fair, and held at regular intervals. For this, basic provisions regarding the right to vote and the conduct of elections should be included in the constitution of the country.

24.”The basis of the concept of secularism is a clear separation between the state and religion” Evaluate the statement

The state will not have an official religion. At the same time, citizens will have the freedom to believe in any religion they wish. The state will treat all religions equally.Since the state does not have an official religion, it does not discriminate against any community on the basis of religion.It provides citizens with equal justice and rights along with freedom of belief

25.Prepare a seminar on “The Role of Political Parties in Strengthening Democracy.”

Political parties are an essential element in a modern democracy. They play an important role in creating political awareness and shaping public opinion in a democracy. Political parties facilitate the functioning of a democracy. The conferences, marches and speeches they hold are the most powerful political education programmes in a democracy. The aim of political parties is to win elections and gain political power by turning public opinion in their favour.

26.Elucidate the Vital role the opposition plays in a democratic system?

The opposition is crucial in a democracy, playing the important role of criticising and evaluating the government . Its freedom to act is a key indicator of a healthy democracy. A constructive opposition carefully scrutinises government activities, criticises wrong policies, and suggests alternative solutions based on public opinion. By organising marches and demonstrations, the opposition makes the political system dynamic and active. Conversely, any system that bans, restricts, or imprisons opposition leaders is detrimental to democratic health.

27.What are the factors that make the opposition essential in a democratic system?

@ Criticising and evaluating the government @ Constructive Governance: Suggesting Alternatives @Dynamic System: Activation and Engagement @ Ensures healthy democracy

28.There are also governments in the world that do not adhere to democracy. What are they ?

Monarchy	The oldest form of government.Power is transferred by inheritance .All the power of the state is vested in the king/queen
Dictatorship	All the powers of the state will be concentrated in one person. No one has the right to question or criticise the person who becomes the supreme leader of the state .All forms of democracy, including elections, will be banned.
Military Dictatorship	The military will rule directly .There will be no democratic rights or other forms of democracy .Protests and criticism will be suppressed by military force
Party	All the powers of the state are concentrated in the

Dictatorship	party.Democratic values, including freedom of expression, are completely prohibited
Theocratic State	Clergy will directly rule the state according to religious laws.The official religion of the state shall be the basis of the legal system. Everyone shall be obliged to believe in and follow the official religion.

Indian Democracy

29.Find and list out the reasons why India adopted a democratic system.

Democratic values significantly shaped the Indian freedom struggle and its leaders, influencing the adoption of democratic methods in all movements . Recognizing India's vast cultural and geographical diversity, the leaders understood that only a democratic system could ensure political unity and provide a platform for diverse ideas to interact. Furthermore, the architects of independent India believed democracy was the sole system capable of ensuring peaceful power transfer and offering citizens a formal means to express grievances and protests. Consequently, upon achieving independence, India chose to implement a democratic system and drafted a corresponding constitution.

30.India is the largest democratic country in the world. Let us examine the features of Indian democracy.

Or

Organise a seminar on the features of the Indian democratic system.

Parliamentary System,Universal Adult Franchise in India,Elected Government,Independent Judiciary and Judicial Review,Party System in India,Pluralism

31.Short Note on Parliamentary System

In India's parliamentary system, the Council of Ministers, headed by the Prime Minister, wields the real power . This Council is characterized by its collective responsibility to Parliament. The Council can be removed if the Lok Sabha passes a no-confidence motion. Furthermore, Parliament maintains control over the Council of Ministers through various procedural mechanisms, including the Adjournment Motion, Question Hour, Calling-Attention Motion, and Zero Hour.

32.Prepare a discussion note on “The Importance of Universal Adult Franchise in Representative Democracy.”

The Indian Constitution, via Article 326, grants all citizens the right to vote regardless of caste, religion, gender, or class . While the initial voting age was 21, the 61st Constitutional Amendment reduced it to 18 years starting with the 1989 election. Despite initial opposition due to high illiteracy, Jawaharlal Nehru championed this right for all citizens. This adoption of universal adult franchise was highly significant because even advanced Western democracies initially restricted voting rights for workers and women, highlighting the progressive foresight of India's framers.

33.What do you mean by Elected Government ?

India's government is formed by representatives elected by the people at the national and state levels . These governments have a standard term of five years, after which new elections are held. Governing bodies for local self-government are also formed through elections. A fundamental democratic principle is that all Indian citizens are granted the right to contest elections and hold public office, regardless of caste, religion, gender, or economic status. To ensure the integrity of this process, an independent Election Commission conducts free and fair elections.

34.Prepare a short essay on Independent Judiciary and Judicial Review

The Indian judicial system is structured with the Supreme Court at the apex, followed by the High Courts and lower courts . To ensure its necessary independence from the executive and legislature, judges are guaranteed a fixed tenure and the Constitution limits external interference in their service and salary conditions. The court functions as the guardian of the Constitution. Crucially, it possesses the power of judicial review, allowing it to declare any unconstitutional acts of the executive or legislature invalid.

35.Give an account on the Evolution of India's Party System in India

Political parties are essential to India's democratic system, which has operated under a multi-party system since independence . From the initial elections until 1967, the Indian National Congress was dominant nationally. After this period, while Congress maintained national power, it began losing control in many states. A significant shift occurred after the 1989 elections, marking the introduction of the coalition system, where multiple parties cooperate to form the government.

36.Briefly explain Pluralism

Unlike the European nation-states based on "one culture, one nation," India was founded by giving equal rights and importance to its vast religious, ethnic, and cultural diversities . To politically manage these differences, India adopted a federal system. The Constitution specifically provides protection for religious and linguistic minorities through Fundamental Rights, includes 22 languages in the 8th Schedule, and offers special provisions for tribal groups in the 5th and 6th Schedules. India is a secular state, as declared in its Preamble, meaning the nation has no official religion and treats all faiths equally. The Indian Parliament serves as the representative forum for this entire national diversity.

Europe on the World Map

1.Look at the world map and answer the following questions.

Which continent is located to the east of Europe- Asia
Which ocean is located to the west of Europe- North America
Which ocean is located to the north of Europe- Arctic
Which sea is located to the south of Europe- Mediterranean

2.Why Europe is called Eurasia ?

Europe is the sixth largest continent. While the other six continents are separate landmasses, Europe is seen as a western extension of Asia. The vast landmass that includes Asia and Europe is called Eurasia.

3.Europe has been considered as a continent since ancient times.Evaluate the statement

Europe was considered as the centre of the world by the Greek and the Roman scholars. Europe was recorded as a continent on world maps made This is only by the Greeks and the Romans 2000 years ago.

4.Find the latitudinal and longitudinal extension of Europe

Europe lies between the latitudes 35°N to 72°N and the longitudes 25°W to 65°E.

Location of Europe

5.Give an account on Location of Europe

Europe is bordered by the Arctic Ocean to the north, the Atlantic Ocean to the west, and the Mediterranean Sea to the south. The Ural Mountains, the Black Sea, and the Caspian Sea to the east separate Europefrom Asia.

Geographical Features

6.Europe has a diverse topography. what they are ?

The topography of Europe can be classified as follows. Let's see

* North Western Highlands * Central Uplands * North European Plains
* Alpine Mountain system

7.Write a short note on North Western Highlands

The high hills found in the North Western regions of Europe and the Scandinavian Plateau spread across Norway, Sweden, and Finland are the speciality of the North Western Highlands. Scandinavia is a popular destination for travellers with its snow-capped mountains, glaciers, fast-flowing rivers, beautiful forests, and lakes. Round-topped and gently sloping hills, formed as a result of long-term glaciation and weathering, are found in many places. Fjords, which are found on the Scandinavian coast, are another feature of this region.

8.Briefly explain North European Plains

The North European Plains are located south of the North Western Highlands. It is also known as the Great European Plain. This plain extends from the Ural Mountains in the east to the Atlantic Ocean in the west. The plain has a fairly flat topography with small hills here and there. The North European Plain, which is very suitable for agriculture, was formed as a result of glacial deposits and by the alluvium deposits of the major rivers of Europe, the Volga, the Don, and the Dnieper. The Volga is the longest river in Europe. The steppes are the most widespread grassland in the North European Plain.

9.What is meant by Central Uplands

The Central Uplands are located to the south of the North European Plain. This area of land, filled with small hills, valleys, and plateaus, stretches from Ireland in the west to Russia in the east. The Rhine and Rhone rivers enrich this area with water.

10.The different landforms that make up the Central Uplands are listed below. Check the table and identify the countries in which each of them is located.

Major landforms of the Central Uplands	
Landforms	Country
Rhine Valley, Vosges Mountains, Jura Mountains, Central Massif Plateau	France
Ardennes Mountains	Belgium
Black Forest Mountains, Harz	Germany

Mountains	
Maseta Plateau	Spain
Bohemian Plateau	Czech Republic

11.Find out which countries have plateaus that are part of the Central Uplands and write down them.

$ France $ Spain $ Germany $ Czech Republic $ Belgium

12.Explain Alpine Mountain System

The Alpine Mountain System is a series of fold mountains with parallel ranges located south of the Central Uplands. These mountain ranges extend from the Atlantic Ocean in the west to the Caspian Sea in the east. The main Alpine mountain ranges are the Alps, the Caucasus, and the Carpathians. Mount Elbrus in the Caucasus Mountains is the highest peak in Europe.

13.Complete the chart below regarding the topography of Europe.

Major topographic divisions of Europe			
North Western Highlands	North European Plains	Central Uplands	Alpine Mountain System
* Fjords * Scandinavian Plateau * High hills	* Steppes * glacial deposits and alluvium deposits	* small hills, valleys, and plateaus	* a series of fold mountains * Mount Elbrus

Climate, Natural Vegetation and Wildlife

14.Write the factors influence the climate of an area

Latitude # Topography # Closeness of the ocean

15.Which is the only continent in the world without desert ?

Europe

16.”Europe can be classified into several climatic regions based on its climate. Each climatic region has its own flora and fauna”.Elucidate the statement.

Arctic/Tundra Climate-Arctic parts of Europe experience a tundra climate. The Arctic/Tundra climate is characterised by short, cold summers and long, harsh winters. While summer temperature rises to 10°C, winter temperatures drop from -25°C to -40°C. There is no sunlight here for 5 to 6 months in winter.We know how important sunlight is for the growth of plants. Long nights, harsh winters, and precipitation in the form of ice prevent the growth of plants. Due to this, only shrubs, lichens, and mosses that can withstand the cold generally grow in this climate. The lack of vegetation in the

tundra climate also affects the animal life here. Only a few animals such as wolf, reindeer, polar bear, and Arctic hare with thick fur that can survive the cold, can be seen here.

Subarctic/Taiga Climate- It lies south of the tundra region. Although the short summers are mild and warm, winters are as harsh as those in the Arctic climate. Temperature is below 0°C for five to seven months of the year. Precipitation in the taiga climate is generally in the form of snow.

The main vegetation of the taiga climate is evergreen forests with coniferous trees. The main trees are pine and cedar. Lynx, ermine, and silver fox are the prominent animals in the region.

Eastern European Climate- The eastern parts of Europe experience severe summers and extreme winters. This climate is known as the Eastern European Climate. Winter temperature often drops below 0°C. Light rain fall is common in summer.Due to the scanty rainfall and intense heat, large trees do not grow in areas experiencing this climate. The steppes experience the Eastern European Climate. Antelope, wolf, and horse are animals.

Western European Climate- is characterised by severe winter, moderate heat, and rainfall throughout the year. This Climate is experienced in the northwestern European countries of Britain, the Netherlands, Belgium, southern Norway, Denmark, western France, and northern Spain. The presence of the Atlantic Ocean influences the climate here.This Climate is suitable for plant growth. Deciduous trees with strong wood and broad leaves are found here. Examples of these are beech, elm, oak, birch, and ash. Animals like squirrel, fox, hare, deer, and wolf are also found here.

Mediterranean Climate- Mediterranean climate is the climate experienced in the regions around the Mediterranean Sea. Portugal, Spain, Italy, Greece, Bosnia and Herzegovina, Croatia, and southern France experience Mediterranean climate. Mediterranean climate is characterised by hot, dry summers and cold, rainy winters. This is a climate where trees and shrubs grow well. Rosemary, lavender, olive, pine, orange, grape, and fig are the main plants. Rare species of animals such as the Iberian lynx, Barbary macaque, Mouflon goat, Spanish imperial eagle, nuthatch are found in the Mediterranean region.

Society and People

17.Prepare a short note on Population

Despite being the sixth largest continent by size, Europe ranks third globally in population after Asia and Africa. Russia is Europe's most populous country, followed by Germany, the United Kingdom, France, and Italy.

Population distribution across Europe is uneven, with higher densities found in the continent's western, southern, and eastern regions.

18.Prepare a note on how the topography and climate of countries like Norway, Sweden, and Finland influence population density.

Due to the geographical characteristics, the population and population density in the Scandinavian countries such as Norway, Sweden, and Finland are very low. The majority of the population in these countries lives in the coastal cities in the South.

19.Identify the main factors that contribute to Europe's high immigration rate and its status as an industrially and agriculturally rich region.

Europe's linguistic diversity is driven by its varied topography, culture, and immigration. Russian is the most widely spoken language, alongside German, French, Italian, English, and Spanish.

Immigration is a major cause of European population growth, with many migrants arriving from Africa, Central Asia, and South Asia seeking opportunities in the developed region.

Europe's status as a developed, industrially, and agriculturally rich area is attributed to its excellent climate, abundant natural resources, and advanced technology, which acts as the main draw for this migration.

20.Although regional diversity exists in agriculture, What farming types are mostly practised depending on the availability of land and population density ?

Intensive Farming	Extensive Farming	Mixed Farming
Two distinct farming types: one is an intensive method that utilizes advanced technology to increase production in densely populated areas; the second is Mediterranean cultivation, which thrives in Mediterranean climates and focuses mainly on crops like oranges, olives, and	Commercial, mechanized grain farming, which is practiced over vast areas of land, specifically in the steppes of northern Europe.wheat. Cereals;barley, corn, and oats are cultivating	A method of raising livestock along with crops.In western Europe. Cereals,vegetables,livestock are grown

grapes.		

Fishing

21.Fishing is a primary economic activity in Europe, as important as agriculture.Substantiate

proximity to the sea influences Europe's fishing industry.Fishing is a major occupation in the countries of Norway, Denmark, and Poland, which are bordered by the North Sea, the North Atlantic Ocean, and the Arctic Ocean. Cod, herring, salmon, halibut, and sea trout are abundant in these areas.

Industry

22.The Industrial Revolution led Europe to development.Complete the table on iron and steel industry, textile industry, and manufacturing sector

Industries	Countries
Iron	Germany,Russia,Turkey,Italy
Shipbuilding	Italy,France,Germany,Netherlands
Textiles	Italy,Germany,France,UK
Automobiles	Germany,Spain,Czech Republic,Slovakia

Prepared by

VIMAL VINCENT V HST GHSS North Paravur 9847452945
